

Frozen survey data accounting

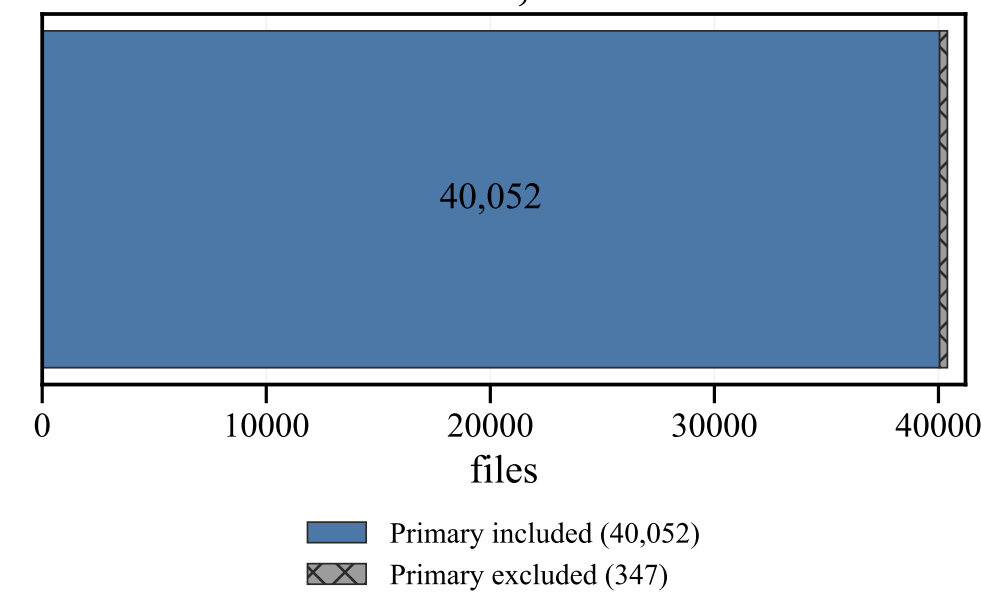

(a) Night closure
Total = 243 nights

(b) Raw-file closure
Total = 41,074 files

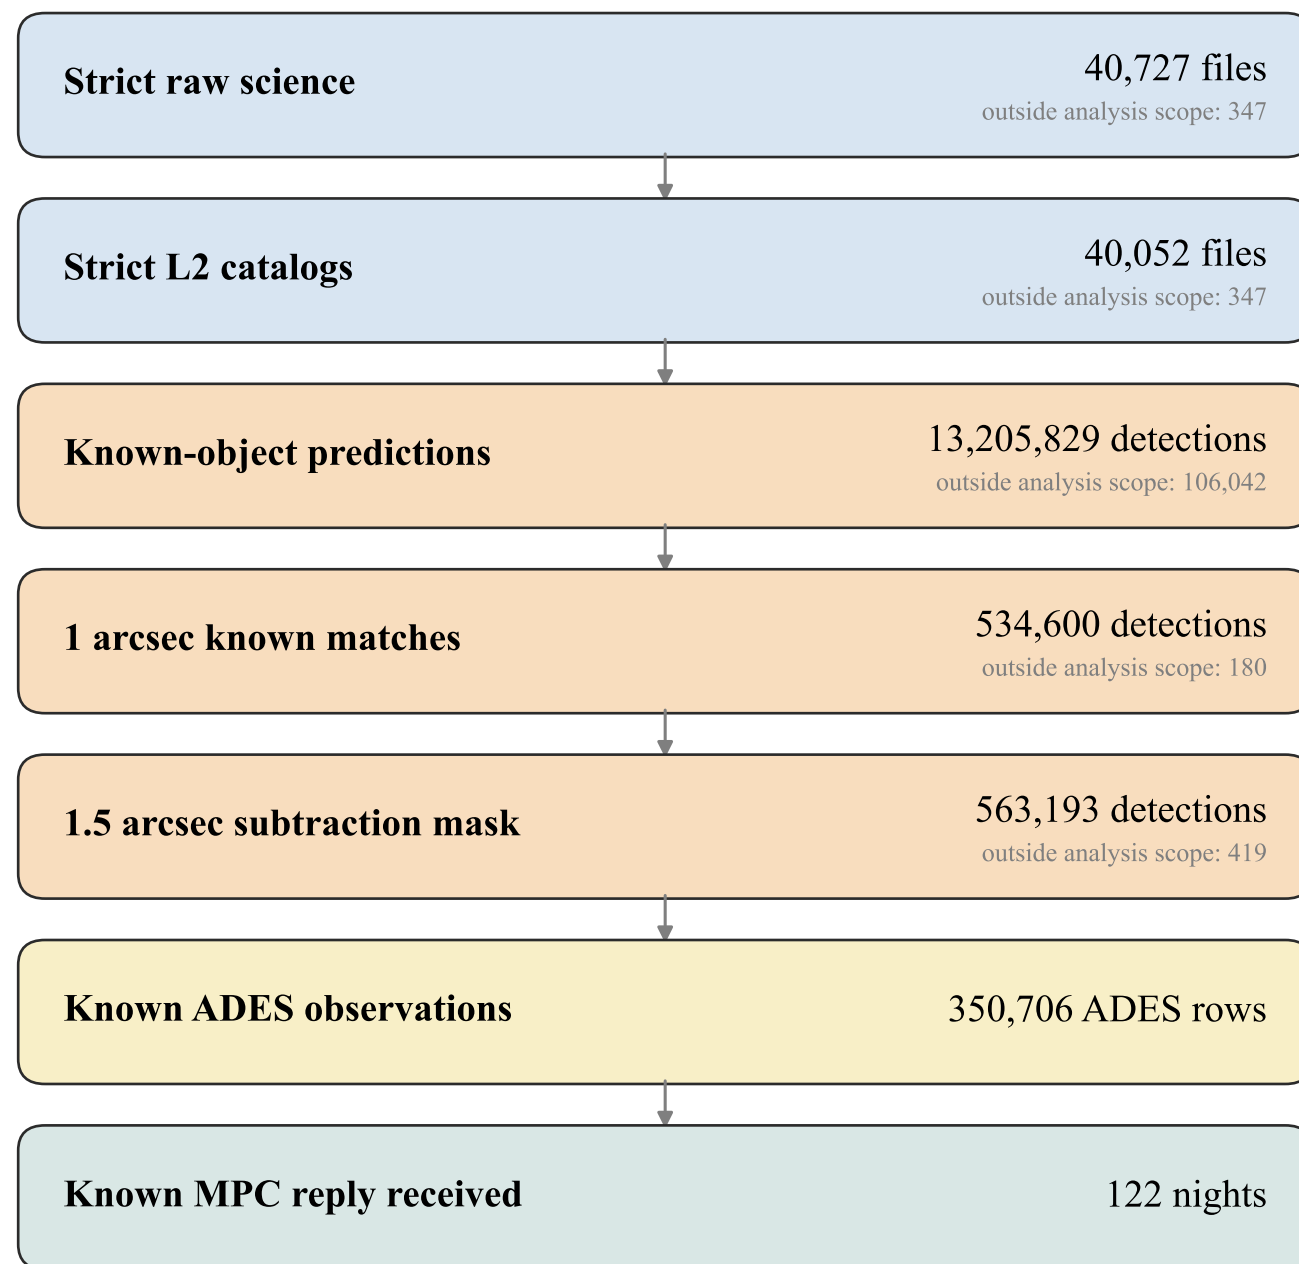

(c) L2-file closure
Total = 40,399 files

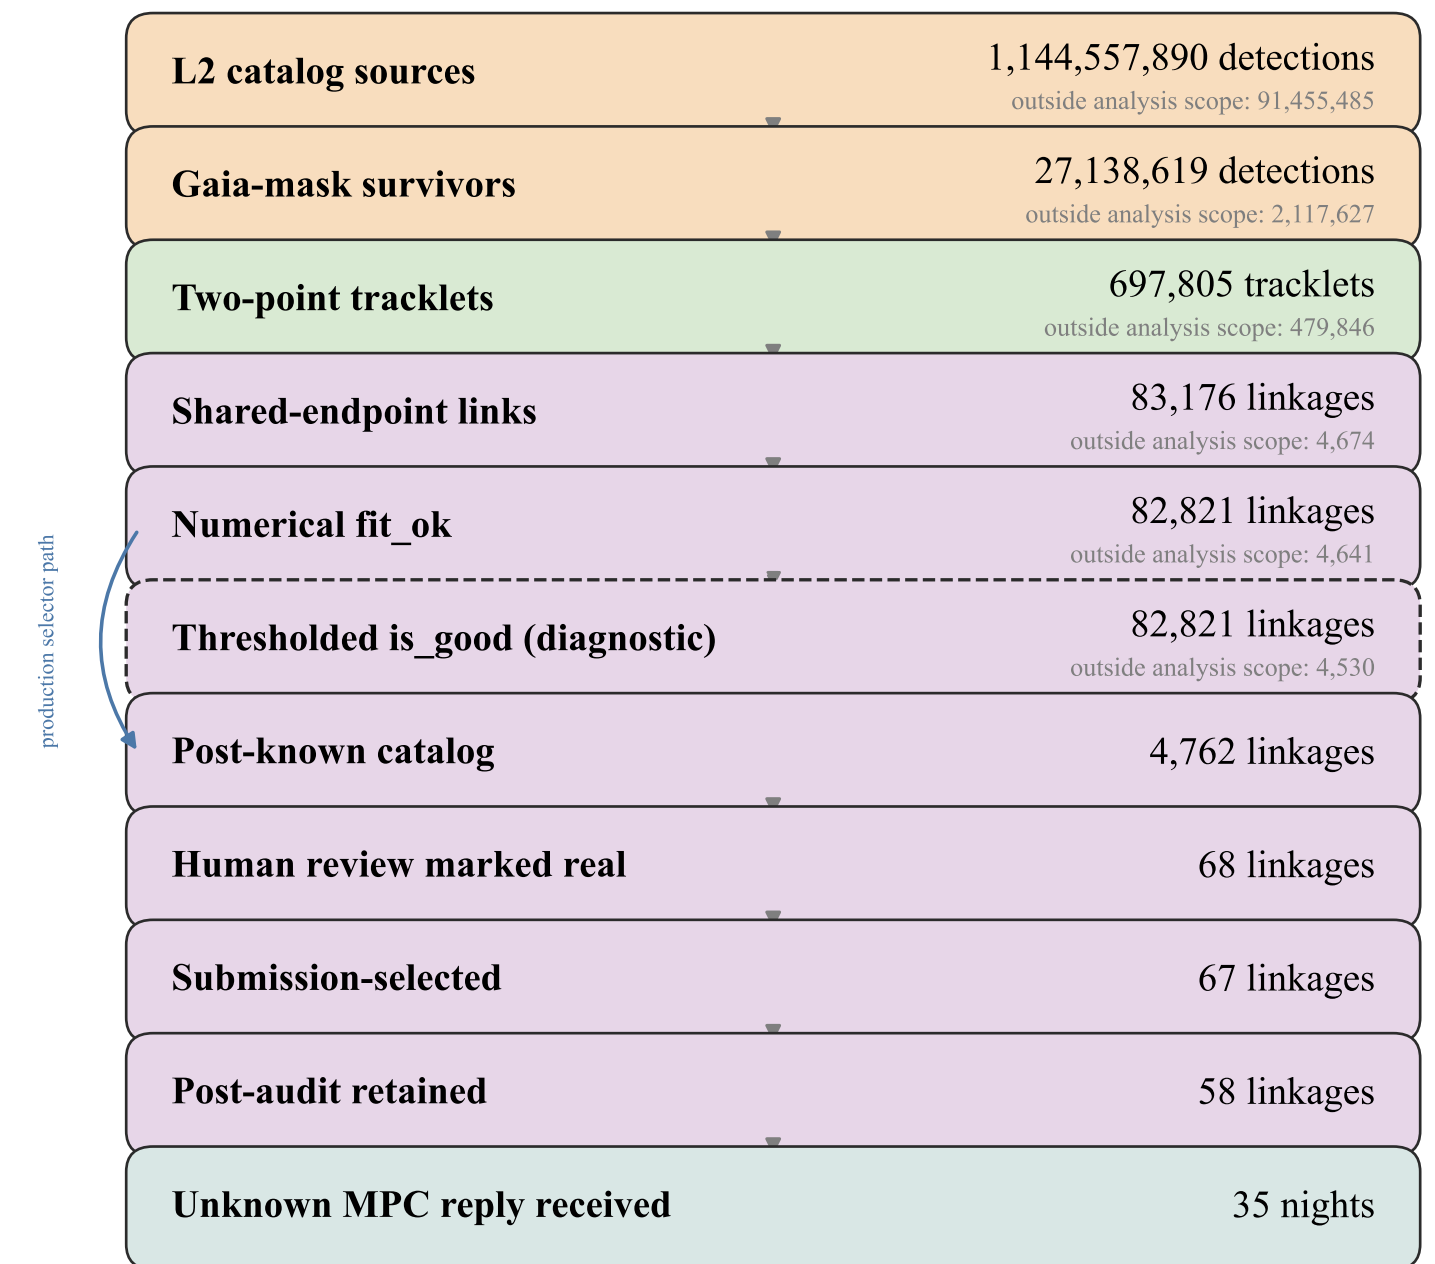

(d) Known-object branch

Counts aggregated over primary-science-included nights

(e) Unknown-object branch

Counts aggregated over unknown-science-included nights

file detection tracklet linkage ADES row night

Arrows show processing order only; the blue bypass is the executed fit_ok selector path, while is_good is a parallel diagnostic. Box size does not encode count.
